ABOUT ME

Over 20 years of experience in the software industry, particularly in mobile software, since the era of PDAs like Palm and Pocket PC.

Transitioned into the smartphone era, starting from Java Phone and Symbian to the current generation of Android and iOS.

Proficient in programming using C, C++, Java, Dart (Flutter), and also capable of using languages like Python, JavaScript, Objective-C, and SQL.

Experienced in the Software Development Life Cycle (SDLC) process.

Able to work as a team, help solve problems under pressure, and successfully complete projects.

Experienced in remote work with international teams across different time zones, such as Europe and the USA.

Experienced in connecting applications with Firebase, GraphQL, and Rest APIs.

Capable of deploying applications to both Google Play Store and Apple App Store.

Quick to learn new technologies and apply them effectively to work.
